Left to right: Frank Sanchez, foreman for Valterra Landscaping for the past 10 years, Gino Cervo, sales specialist for Bobcat of Toronto and Vince Baggetta, owner of Valterra Landscaping take a break from their current sales pavillion landscape job to take a picture of Valterra's newest Bobcat machines the new R-Series E85 compact excavator and the T770 compact track loader.

Vince Baggetta has been in the landscaping business since he was 15. Fourteen years ago, he decided he wanted to branch out on his own and established Valterra Landscaping to serve the GTA. Valterra offers comprehensive landscape services – from concept through to construction for residential, commercial and industrial projects.

He attributes the company's success to delivering high-quality, cost-effective projects that are finished on time and on budget. "I run a tight ship. The crew all get along and everyone is very meticulous on every project," stated Vince.

"We had very good success with Bobcat® machines at a previous company so I contacted Gino Cervo, sales specialist for Bobcat of Toronto when I started my business. The first Bobcat machine I purchased was the S220 skid-steer loader. I still have it and will never get rid of it! I now have 9 Bobcat machines: S220, S250, 463 compact skid-steer loaders, 331 and E85 compact excavators, and two T750, T450 and T770 compact track loaders. I have never had a real problem with any of them."

"My new Bobcat R-Series E85 compact excavator has even more visibility,

greater clearance, has a quick attach, A/C, heat, radio and keyless start which is a big plus. Each operator gets their own code. I don't have to worry about keys. The machine will also send signals to both myself and the dealership when service is needed, etc. It saves time and my machines from damage."

"Gino Cervo and Bobcat of Toronto's service has been great. Gino and I are so close now, I was even at his wedding."

Thanks Vince.
